INDEX OF KEYWORDS

Part I – Fundamentals of Functional Materials

FUNCTIONAL MATERIALS, P. VILARINHO
Keywords: Dielectrics, piezoelectrics, pyroelectrics, ferroelectrics, incipient ferroelectrics, relaxor ferroelectrics, preparation, properties, applications.

SCALING OF SILICON-BASED DEVICES TO SUBMICRON DIMENSIONS, A.I. KINGON
Keywords: Scaling, silicon-based microelectronics, nanoelectronics, functional electronics, new materials.

UNSOLVED PROBLEMS IN FERROELECTRICS FOR SCANNING PROBE MICROSCOPY, J.F. SCOTT
Keywords: Ferroelectric thin films, lead zirconate titanate (PZT), hafnia, zirconia, strontium bismuth tantalite, strontium titanate/barium titanate superlattices, Fe-RAM, DRAM

Part II – Fundamentals of Scanning Probe Techniques

PRINCIPLES OF BASIC AND ADVANCED SCANNING PROBE MICROSCOPY, D.A. BONNELL, R. SHAO
Keywords: Scanning probe microscopy, multiple modulation, spatial resolution, complex materials, molecular wires, ferroelectric domains.

NANOSCALE PROBING OF PHYSICAL AND CHEMICAL FUNCTIONALITY WITH NEAR-FIELD OPTICAL MICROSCOPY, L.M. ENG
Keywords: Near-field optical microscopy, organic and inorganic materials, microscopical and sensoric applications

NANOSCALE ELECTRONIC MEASUREMENTS OF SEMICONDUCTORS USING KELVIN PROBE FORCE MICROSCOPY, Y. ROSENWAKS AND R. SHIKLER
Keywords: Kelvin probe force microscopy, semiconductor GaP, minority-carrier diffusion length, potential distribution

Keywords: Scanning tunneling microscopy, semiconductors, dopant profiling, advanced image processing techniques

485
FUNCTIONS OF NC – AFM ON ATOMIC SCALE, S. MORITA, N. OYABU, T. NISHIMOTO, R. NISHI, O. CUSTANCE, I. YI, Y. SUGAWARA

Keywords: Noncontact atomic force microscope, atomic force mechanisms, three-dimensional mapping tool, atom manipulation tool

Part III – Application of Scanning Techniques to Functional Materials

SCANNING PROBE MICROSCOPY OF PIEZOELECTRIC AND TRANSPORT PHENOMENA IN ELECTROCERAMIC MATERIALS, S.V. KALININ AND D.A. BONNELL

Keywords: Scanning Probe Microscopy, electronic ceramic materials, ZnO, Nb-doped SrTiO₃, BaTiO₃, BiFeO₃, transport properties, electric phenomena, ferroelectric domain structure

SFM-BASED METHODS FOR FERROELECTRIC STUDIES, A. GRUVERMAN

Keywords: Scanning force microscopy, piezoresponse force microscopy, ferroelectrics, films, domain imaging, polarization mechanism

SCANNING TUNNELING SPECTROSCOPY. Local density of states and spin distribution of interacting electron systems, M. MORGENSTERN

Keywords: Scanning tunneling spectroscopy, electron systems in InAs, domains in ferro-magnetic particles.

NANOINSPECTION OF DIELECTRIC AND POLARIZATION PROPERTIES AT INNER AND OUTER INTERFACES IN FUNCTIONAL FERROELECTRIC PZT THIN FILMS, L.M. ENG

Keywords: piezoresponse force microscopy, Kelvin probe force microscopy, pull-off force spectroscopy, PZT thin films, polarization profile, local dielectric properties

MICROSCALE CONTACT CHARGING ON A SILICON OXIDE, S. MORITA, T. UCHIHASHI, K. OKAMOTO, M. ABE, Y. SUGAWARA

Keywords: Electrostatic force microscopy, noncontact atomic force microscopy, Kelvin probe force microscopy, silicon oxide, GaAs, contact charging, charge distribution

CONSTRUCTIVE NANOLITHOGRAPHY, S.R. COHEN, R. MAOZ, AND J. SAGIV

Keywords: Scanning Probe Microscopy, constructing nanolithography, self-assembled monolayers (SAMs), silane-based SAMs

Keywords: Scanning tunneling microscopy (STM), self-assembly techniques, alkanethiolate SAMs, nanoscale electronic devices
Part IV – Contributed papers

STM TIPS FABRICATION FOR CRITICAL DIMENSION MEASUREMENT, A. PASQUINI, G.B. PICOTTO, M. PISANI
Keywords: Fabrication, STM tips, Tungsten (W), electrochemical reaction

SCANNING PROBE MICROSCOPY CHARACTERIZATION OF FERROELECTRICS DOMAINS AND DOMAINS WALLS IN KTiOPO₄, C. CANALIAS, R. CLEMENS, J. HELLESTRÖM, F. LAURELL, J. WITTBORN, H. KARLSSON
Keywords: Scanning probe microscopy, inverse piezoelectric effect, KTiOPO₄, ferroelectric domains, domain imaging, single crystals and waveguides.

IMAGING LOCAL DIELECTRIC AND MECHANICAL RESPONSES WITH DYNAMIC HETERODYNED ELECTROSTATIC FORCE MICROSCOPY, D. R. OLIVER, K.M. CHENG, A. PU, D.J. THOMSON AND G.E. BRIDGES
Keywords: Scanning probe microscopy, electrostatic force microscopy, polarization dynamics, nanotechnology, micro-electro-mechanical systems.

AFM PATTERNING OF SrTiO₃₋₅ THIN FILMS AND DEVICE APPLICATIONS, L. PELLEGRINO.
Keywords: Atomic Force Microscope, conducting SrTiO₃₋₅ thin films, functional electronics conducting element.

NANOSCALE INVESTIGATION OF A RAYLEIGH WAVE ON LiNbO₃, J. YANG AND R. KOCH
Keywords: Surface acoustic waves, elastic properties of solid, scanning tunneling microscopy.

SCANNING CAPACITANCE FORCE MICROSCOPY AND KELVIN PROBE FORCE MICROSCOPY OF NANOSTRUCTURES EMBEDDED IN SiO₂, G. TALLARIDA, S. SPIGA, M. FANCIULLI
Keywords: Scanning capacitance force microscopy, Kelvin probe force microscopy, Sn nanostructures, silicon oxide thin films

ELECTRICAL CHARACTERISATION OF III-V BURIED HETEROSTRUCTURE LASERS BY SCANNING CAPACITANCE MICROSCOPY, O. DOUHÉRET, K. MAKNYS AND S. ANAND
Keywords: Scanning capacitance microscopy, GaAs/AlGaAs heterostructures, GaInP:Fe, optoelectronic devices

PROBING THE DENSITY OF STATES OF HIGH TEMPERATURE SUPERCONDUCTORS WITH POINT CONTACT TUNNELING SPECTROSCOPY, L. OZYUZER, J.F. ZASADZINSKI, N. MIYAKAWA, K.E. GRAY
Keywords: Point contact tunneling spectroscopy, I-V and dI/dV-V characteristics, double CuO₂ layer Bi₂Sr₂CaCu₂O₈+b, high-Tc superconductivity
ANNEALING INFLUENCE ON CO ULTRATHIN FILM MORPHOLOGY IN MBE GROWN Co/Au BILAYERS, A. WAWRO, L.T. BACZEWSKI, P. PANKOWSKI, P. ALESZKIEWICZ, M. KISIELEWSKI, I. SVEKLO, A. MAZIEWSKI

Keywords: Atomic force microscopy, Auger electron spectroscopy, reflection high energy electron diffraction, Au/Co/Au, magnetic applications.

CORRELATION BETWEEN THE SURFACE RELIEF AND INTERFACES STRUCTURE OF Fe/Cr SUPERLATTICES AND ELECTROMAGNETIC WAVES PENETRATION, A. RINKEVICH, I. ROMASHEV, V. USTINOV

Keywords: Penetration of electromagnetic waves, tunneling microscopy, ferromagnetic resonance, Fe/Cr superlattices, thin films, magnetic properties.

MAGNETORESISTANCE AND MICROSTRUCTURE OF MAGNETIC THIN FILM MULTILAYERS, JENICA NEAMTU AND M. VOLMER

Keywords: Magnetoresistance, nickel iron permalloy, multilayers, thickness, microstructure

SPM INVESTIGATION OF THIOLATED GOLD NANOPARTICLE PATTERNS DEPOSITED ON DIFFERENT SELF-ASSEMBLED SUBSTRATES, F. SBRANA, M. T. PARODI, D. RICCI, E. DI ZITTI

Keywords: Scanning Probe Microscopy, Transmission Electron Microscopy, thiolated gold nanoparticles, self-assembled monolayers.

AFM OF GUANINE ADSORBED ON HOPG UNDER ELECTROCHEMICAL CONTROL, A.-M. CHIORCEA AND A.M. OLIVEIRA BRETT

Keywords: Atomic Force Microscopy, Magnetic AC Mode, electrochemical deposition, guanine, adsorption mechanism.

DYNAMICS IN MODEL MEMBRANES AND DNA-MEMBRANE COMPLEXES USING TEMPERATURE CONTROLLED ATOMIC FORCE MICROSCOPY, Z.V. LEONENKO AND D.T. CRAMB

Keywords: Atomic force microscopy, phospholipid bilayers, macromolecular membrane complexes, phase transition.
