Contents

Part I Historical Overview

Planetary Nebulae Beyond the Milky Way – Historical Overview

Michael J. Barlow 3

Part II Planetary Nebula Surveys

Surveys for Planetary Nebulae in the Magellanic Clouds

George H. Jacoby 17

H-alpha Stacked Images Reveal Large Numbers of PNe in the LMC

Warren Reid, Quentin Parker 30

The Census of Planetary Nebulae in the Local Group

Romano L.M. Corradi, Laura Magrini 36

Planetary Nebulae in the Outer Disk and Halo of M31

Alexei Kniazev, Eva K. Grebel, Dan Zucker, Eric Bell, Hugh Harris 46

Deep PN Surveys Beyond the Local Group

Roberto H. Méndez 49

Planetary Nebulae in NGC 5128 (Centaurus A)

Eric W. Peng, Holland C. Ford, Kenneth C. Freeman 59

Extragalactic Planetary Nebula:

Methods of Discovery Using Infrared Photometry

Pedro García-Lario, Amelia Bayo, Carlos Alfageme 67

Proposed Nomenclature for Extragalactic Planetary Nebulae

Quentin A. Parker, Agnes Acker 72

Part III The Planetary Nebula Luminosity Function

The Planetary Nebula Luminosity Function

Robin Ciardullo 79

VIII Contents

The PNLF Distance to the Sculptor Group Galaxy NGC 55 <i>G.C. Van de Steene, G.H. Jacoby, C. Praet, R. Ciardullo, H. Dejonghe . . .</i>	91
---	----

Part IV PN Stellar Progenitors

Mass Loss at the Tip of the AGB: Essentials for Population Synthesis <i>Lee Anne Willson</i>	99
AGB Stars in the Local Group, and Beyond <i>M.A.T. Groenewegen</i>	108
Abundance Gradients in Local Group Galaxies Using Asymptotic Giant Branch Stars <i>Maria-Rosa Cioni</i>	121
Red Giant Stars in NGC 5128 <i>Marina Rejkuba</i>	126
Molecules in the AGB Stars of Nearby Galaxies <i>M. Matsuura, A.A. Zijlstra, J.Th. van Loon, I. Yamamura</i>	131
Clues on Post-Asymptotic Giant Branch Evolution and Planetary Nebulae Populations from the Magellanic Clouds <i>Letizia Stanghellini</i>	136
Central Stars of Planetary Nebulae in the Magellanic Clouds <i>Eva Villaver</i>	147
Stellar Winds of Central Stars of the LMC PNe <i>Anabel Arrieta, Letizia Stanghellini</i>	159
Parameters of PNe: Constant Density versus Density Distribution <i>Michaela Kraus</i>	161

Part V Physical Conditions of PNe

Plasma Diagnostics and Elemental Abundance Determinations for PNe – Current Status <i>Xiao-wei Liu</i>	169
Probing Nebular Physical Conditions Using the Hydrogen Recombination Spectrum <i>Y. Zhang, X.-W. Liu, R. Wesson, P.J. Storey, Y. Liu, I.J. Danziger</i>	183

A Reexamination of Electron Density Diagnostics for Ionized Gaseous Nebulae	
<i>W. Wang, X.-W. Liu, Y. Zhang, M.J. Barlow</i>	184
Probing the Nebular Thermal Structure Using the He I Recombination Spectrum and Evidence Against Temperature Fluctuations and Density Inhomogeneities	
<i>Y. Zhang, X.-W. Liu, Y. Liu</i>	190
Chemically Inhomogeneous Photoionization Modelling of the Planetary Nebula SMC N87	
<i>Yiannis G. Tsamis, Daniel Péquignot</i>	192
An Optical Recombination Line Abundance Survey for Galactic Bulge Planetary Nebulae	
<i>W. Wang, X.-W. Liu, Y. Zhang, Y. Liu</i>	194
MOCASSIN: 3D Photoionisation and Dust Radiative Transfer Modelling of PNe	
<i>Barbara Ercolano, M.J. Barlow, P.J. Storey, X.-W. Liu</i>	196
C III] Imagery of Planetary Nebulae and Extragalactic H II Regions	
<i>R.J. Dufour, R.B.C. Henry, K.B. Kwitter, B.A. Buckalew, B.D. Moore, J. Bohigas, C. Esteban</i>	199
CRIRES and VISIR, ESO's Latest Tools for Infrared Studies of PNe beyond the Milky Way	
<i>Hans Ulrich Käufl</i>	201
<hr/>	
Part VI PNe as Chemical Probes of Galaxies	
<hr/>	
Chemical Composition of Planetary Nebulae: The Galaxy and the Magellanic Clouds	
<i>Walter J. Maciel, Roberto D.D. Costa, Thais E.P. Idiart</i>	209
Planetary Nebulae in the Sagittarius Dwarf Spheroidal Galaxy	
<i>Albert A. Zijlstra, Krzysztof Gesicki, Jeremy Walsh, Daniel Péquignot</i>	215
What PNe Could Tell About Extinction Inside External Galaxies	
<i>Joachim Köppen</i>	217
Planetary Nebulae as Probes of the Chemical Evolution of Dynamically Hot Systems	
<i>Michael G. Richer, Marshall L. McCall</i>	220

A Study of Chemical Abundances of Planetary Nebulae in M33 <i>Mario Perinotto, Laura Magrini, Antonio Mampaso, Romano L.M. Corradi</i>	232
The Inner Abundance Gradient of M33 from Bright Planetary Nebulae <i>Grażyna Stasińska, José M. Vilchez, Enrique Pérez, Rosa M. Gonzalez Delgado, Romano L.M. Corradi, Antonio Mampaso, Laura Magrini</i>	234
Crowded Field 3D Spectrophotometry of Extragalactic Planetary Nebulae <i>Martin M. Roth, Thomas Becker, Petra Böhm, Detlef Schönberger, Matthias Steffen, Katrina Exter</i>	239
Extragalactic PNe Observed with 3D Spectroscopy <i>Katrina Exter, Petra Böhm, Thomas Becker, Martin Roth</i>	244
Spectroscopy of Planetary Nebulae in Sextans A and Sextans B <i>Laura Magrini, Pierre Leisy, Romano L.M. Corradi, Mario Perinotto, Antonio Mampaso, José Vilchez</i>	247
Local Group Census: The Dwarf Irregular Galaxy NGC 6822 <i>P. Leisy, L. Magrini, R.L.M. Corradi, A. Mampaso</i>	252
Spectroscopy of PNe in Sextans A, Sextans B, NGC 3109 and Fornax <i>Alexei Y. Kniazev, Eva K. Grebel, Alexander G. Pramskij, Simon A. Pustilnik</i>	257
Planetary Nebula Abundances in NGC 5128 with VLT FORS <i>J.R. Walsh, G. Jacoby, R. Peletier, N.A. Walton</i>	262
<hr/>	
Part VII PNe as Kinematic Probes of Galaxies	
<hr/>	
Galaxy Dynamics and the PNe Population <i>Nigel G. Douglas</i>	269
Mapping the Stellar Dynamics of M31 <i>Helen Merrett, M. Merrifield, K. Kuijken, A. Romanowsky, N. Douglas, N. Napolitano, M. Arnaboldi, M. Capaccioli, K. Freeman, O. Gerhard, D. Carter, N.W. Evans, M. Wilkinson, C. Halliday, T. Bridges</i>	281
A Keck/Deimos Survey of Red Giant Branch Stars in the Outskirts of M31 <i>Annette M.N. Ferguson, Scott Chapman, Rodrigo Ibata, Mike Irwin, Geraint Lewis, Alan McConnachie</i>	286

Planetary Nebulae in NGC 5128 with VLT FLAMES <i>Marina Rejkuba, Jeremy R. Walsh</i>	292
Probing Halos with PNe: Mass and Angular Momentum in Early-Type Galaxies <i>Aaron J. Romanowsky</i>	294
Modelling Kinematics and Dark Matter: The Halos of Elliptical Galaxies <i>Ortwin Gerhard</i>	299
Dynamics of Rotating Elliptical Galaxies <i>Flavio De Lorenzi, Victor P. Debattista, Ortwin E. Gerhard</i>	311
Dynamics of the NGC 4636 Globular Cluster System <i>Ylva Schuberth, Tom Richtler, Boris Dirsch, Michael Hilker, Leopoldo Infante, Søren Larsen, Markus Kissler-Patig</i>	316
Dynamics of Elliptical Galaxy NGC 4697 from Integrated Light and PNe <i>Niranjan Sambhus, Flavio De Lorenzi, Ortwin Gerhard</i>	318
Planetary Nebulae as Dynamical Tracers: Mass-to-Light Ratio Gradients in Early-Type Galaxies <i>N.R. Napolitano, A.J. Romanowsky, M. Capaccioli, K. Kuijken, M.R. Merrifield, N.G. Douglas, M. Arnaboldi, K.C. Freeman, O. Gerhard</i>	324
<hr/> Part VIII PNe in the Intracluster Environment <hr/>	
Intracluster Planetary Nebulae as Probes of Intracluster Starlight <i>John Feldmeier</i>	331
Planetary Nebulae as Tracers of Galaxy Clusters <i>Magda Arnaboldi</i>	343
Planetary Nebulae as Tracers of the Intergalactic Stellar Background: A Population Synthesis Theoretical Approach <i>Alberto Buzzoni, Magda Arnaboldi</i>	355
The Survival of Planetary Nebulae in the Intracluster Medium <i>Eva Villaver, Letizia Stanghellini</i>	361

Part IX Prospects

Extragalactic Planetary Nebulae: Observational Challenges and Future Prospects	
<i>Quentin A. Parker, Richard Shaw</i>	365
Author Index	369
