INDICO provides users with a simple and efficient interface for finding and displaying events

**Multiple event views:**
An event can be displayed using different visual styles. Adding a new style is very easy.

**Multi-events support:**
IndiCo can handle multiple events classified in a hierarchical tree. Several tools help you to find information.

**User Customized view:**
A login mechanism allows you to present user-customized views.

**Multimedia Material repository**
IndiCo manages all kinds of files, ranging from pictures to transparencies, minutes and videos.

**Additional outputs:**
- XML
- iCal
- PDF
