Contents

Preface	ix
SECTION I. HALO WHITE DWARFS AND GALACTIC STRUCTURE	1
Old Ultracool White Dwarfs as Cosmological Probes <i>G. Fontaine, P. Bergeron, P. Brassard</i>	3
Number counts of white dwarfs: the impact of GAIA <i>Enrique Garcia-Berro, Santiago Torres, Francesca Figueras , Jordi Isern</i>	15
Influence of Metallicity in the Determination of the Age of Halo White Dwarfs <i>J. Isern, E. Garcia-Berro, M. Salaris, I. Dominguez</i>	25
Cool Halo White Dwarfs from GSCII <i>D. Carollo, A. Spagna, M.G. Lattanzi, R.L. Smart, B. McLean, S.T. Hodgkin, L. Terranegra</i>	31
Dark halo baryons not in ancient white dwarfs? <i>C. Reyl, M. Crz, V. Mohan, A. C. Robin, J.-C. Cuillandre, O. Le Fvre, H. J. McCracken, Y. Mellier</i>	41
White Dwarfs in 2QZ and Sloan Surveys <i>Stphane Vennes, Adla Kawka, Scott M. Croom, Brian J. Boyle, Robert J. Smith, Tom Shanks, Phil Outram, Lance Miller, Nicola Loaring</i>	49
White Dwarfs and Cataclysmic Variables in the FBS <i>A.M. Mickaelian</i>	61
White Dwarfs in Globular Clusters <i>S. Moehler, D. Koester, U. Heber, R. Napiwotzki, M. Zoccali, F.R. Ferraro, A. Renzini</i>	73
Core/Envelope Symmetry in Pulsating White Dwarf Stars <i>T. S. Metcalfe, M. H. Montgomery, D. E. Winget</i>	79
A Search for Variability in Cool White Dwarf Stars <i>Terry D. Oswalt, Kyle Johnston, Merissa Rudkin, John Bochanski, Justin Schaefer, Elizabeth Wennerstrom</i>	85

Planetary Nebulae and the Galactic Bulge <i>A.E.J. Peypaud, Q.A. Parker, A. Acker</i>	91
SECTION II. TYPE IA SUPERNOVAE	95
Type Ia Supernovae and Cosmology <i>Alexei V. Filippenko</i>	97
The Progenitors of Type Ia Supernovae <i>Christopher A. Tout</i>	135
Progenitors of Supernovae Type Ia <i>R. Napiwotzki, C.A. Karl, G. Nelemans, L. Yungelson, N. Christlieb, H. Drechsel, U. Heber, D. Homeier, D. Koester, B. Leibundgut, T.R. Marsh, S. Moehler, E.-M. Pauli A. Renzini, D. Reimers</i>	153
Population synthesis for progenitors of type Ia supernovae <i>Lev R. Yungelson</i>	163
How far can we trust SNe Ia as Standard Candles? <i>Dayal Wickramasinghe, Christopher A. Tout, Enikő Regős, Jarrod Hurley, Onno Pols</i>	175
Kirshner on White Dwarfs, Supernovae, and Cosmology <i>Harry L. Shipman</i>	191
SECTION III. CATACLYSMIC VARIABLES AND WHITE DWARF ACCRETION	195
Accretion in Cataclysmic Variable Stars <i>Brian Warner and Patrick A. Woudt</i>	197
White Dwarfs in Cataclysmic Variables: Probes of Accretion History <i>Paula Szkody, Edward M. Sion, and Boris T. Gänsicke</i>	205
Intermediate Polars in Low States <i>Brian Warner</i>	211
Chemical Abundances of WDs in CVs <i>Edward M. Sion, Paula Szkody</i>	217
AM CVn Stars in the UCT CCD CV Survey. <i>Patrick A. Woudt and Brian Warner</i>	225
TUG Observations of V2275 Cyg, RW Umi, PX And and FO Per <i>Ş. Balman, A. Yılmaz, T. Ak, T. Saygıç, H. Esenoğlu, A. Retter, Y. Lipkin, U. Kızıloğlu, A. Bianchini, S. Aliş</i>	233
The Possible Identification of Two Hibernating Novae <i>Adéla Kawka, Stéphane Vennes</i>	243

<i>Contents</i>	vii
Evidence for large superhumps in TX Col and V4742 Sgr <i>Alon Retter, Alexander Liu, Marc Bos</i>	251
CONCLUDING REMARKS <i>Harry Shipman, Edward Sion, Stéphane Vennes</i>	261
Object Index	265
Author Index	267
