Dear Colleague,

To survey the physics done at the CERN SC, we are planning to hold a meeting of SC Users during the second quarter of 1969.

At that meeting, which we envisage to last about two days, we hope to hear reports on experiments in progress or recently completed. There will also be time for discussions of a more general nature concerning physics at the SC.

In order to allow us to make detailed plans, we should like those of you who are currently working at the SC, or have just finished an experiment, to inform us before the end of 1968 of the title of the report you will be able to present and, if possible, of the speaker (whom we should contact for further details).

We should warn you also that we expect to receive a written version of the reports at the time of the meeting.

Yours sincerely,

O. Koford-Hansen,
Chairman, Physics III Committee

A.J. Herz,
Secretary, Physics III Committee.
