Hospitalisation
The choice of establishment, sector of care and type of room have an important impact on the reimbursement rates of in-patient treatment (hospitalisation). All aspects of hospital care concerned: doctors, surgeons, anaesthetists, laboratory tests, radiology, examinations, etc. The table below provides a summary of the different cases.

<table>
<thead>
<tr>
<th>Establishment</th>
<th>Sector of care</th>

The following pages indicate the status of some hospitals:

- Public hospitals in Switzerland page 2
- Public hospitals in France page 3
- Approved private hospitals in Switzerland page 4
- Approved private hospitals in France page 5

Outpatient care
Only care provided by medical practitioners (physicians and auxiliaries assisting in the treatment) qualified and licensed by the competent national authority to exercise in the State in which the treatment is provided can be reimbursed. In the local area, CERN has made tariff agreements with some of them.

- Preferred out-patient care providers in France and Switzerland page 6

In case of doubt
If you want to find out more about the status of a care provider, don’t hesitate to contact UNIQA.

uniga@cern.ch 72730 (from within CERN) or +41 22 767 27 30

¹ The General Rule, defined in the CHIS Rules, is a progressive reimbursement rate at 80 %, 90% or 100% according to the cumulated annual costs borne by the member (FCA - frais à la charge de l’assuré).
² Approved private hospitals:
   a. In Switzerland - any hospital that has concluded a tariff agreement with CERN.
   b. Outside Switzerland - any hospital that has a tariff agreement with the national security scheme and applies similar tariffs to CHIS members.
Note
All public hospitals are approved. The list below is not exhaustive and lists only public hospitals in the local area. Please contact UNIQA to know the status of any hospital not in this list.
