ECFA Information Meeting, 26th May, 1972

Dear Colleague,

You are invited to attend a meeting of the Plenary ECFA on Friday, 26th May, 1972 in the Main Auditorium at CERN, starting at 9.30 a.m. The meeting will last all day.

This Plenary ECFA meeting will be devoted to talks by a number of invited speakers on the activities at the various European national laboratories, on the work of GESSS (the European Working Group on Synchrotron Superconductors) and on the present status and future plans in high-energy physics in the USA and the USSR.

Written reports of some of these talks are enclosed. It is hoped to distribute others at the meeting.

A draft Agenda of the meeting is enclosed.

Yours sincerely,

D. Harting
(ECFA secretary)
DRAFT AGENDA for Friday, 26th May, 1972

1. Opening of the second part of the meeting
2. Report on the work of GESSS (Dr. D. Thomas)
3. Report on Frascati (Professor I.F. Quercia)
4. Report on Orsay (Professor A. Lagarrigue)
5. Report on Saclay (Professor A. Berthelot)
6. Report on DESY and Bonn (Professor W. Paul)
7. Report on Rutherford (Professor G.H. Stafford)
8. Report on Daresbury (Professor A. Ashmore)
9. High-energy physics experimentation in the USSR (Professor A.A. Logunov)
10. High-energy physics experimentation in the USA (Professor R. Cool)
