SPOUSE WELCOME

YOUR NEW LIFE IN THE AREA & AT CERN
The Social Affairs Service is a drop-in service open to all categories of members of CERN personnel and their families.

It offers advice and support in a wide variety of circumstances (professional and private). In particular, it provides help to facilitate your integration in the Host-States at your arrival and during your stay.

The Service guarantees confidentiality.

Further information can be found on the Social Affairs Service website:
http://hr-dep.web.cern.ch/social/social-affairs-service
This brochure, prepared by the Social Affairs Service, includes information for spouses and partners on various support structures. The aim is to help newcomers and their families settle in the local area.

This brochure gives details on:

- Daily administrative tasks
- Housing in France/Canton of Geneva
- Family-friendly social, cultural life at CERN
- Finding employment/Languages courses
- Childcare, education

Please note that information included hereafter may be subject to changes.

For detailed information on the provisions pertaining to all individual cases the official texts must be consulted (e.g. the Staff Rules and Regulations, the Rules of the CERN Health Insurance Scheme, the Administrative, Operational Circulars and individual employment contracts).
DAILY ADMINISTRATIVE TASKS

CERN acknowledges the importance of your new life and the daily administrative tasks you may need to complete during settling. Therefore, you will find next page information on the CERN Health Insurance Scheme (CHIS), CERN access card, vehicle registration, green plates, French and Swiss cards and the banks on-site.

CERN access card for family members

A valid CERN card is needed to enter the CERN site. The Registration Service issues this card. The access can be occasional or regular depending on the frequency of the visit at CERN. More information under this link: http://admin-eguide.web.cern.ch/en/procedure/access-cern-participants-club-activities

Vehicle registration

All drivers must take care of the proper registration of their vehicle while driving or parking on CERN sites by using the tool cern.ch/vehicles. More information under this link: https://admin-eguide.web.cern.ch/node/574

Green plates

Members of the personnel taking up residence in France must complete the formalities for the registration of their vehicle in France as soon as they receive their "special French card" (carte spéciale française). Green-plate registration is limited to vehicles belonging to members of the personnel, who hold a "special card" (AT or FI-series) or diplomatic card (CD-series) issued by the French Ministry of Foreign Affairs (hereinafter MAE). The request has to be done through the Installation Service.

French Card and Legitimation Card

For people who choose to live in France and under certain conditions, family members will have a « special French Card » (carte spéciale française) issued by the MAE. This card allows spouse/partner to drive the car with green plates. More information under this link: http://admin-eguide.web.cern.ch/en/procedure/french-cards

For those who live in Switzerland, the Swiss Federal Department of Foreign Affairs (DFAE) issues a carte de légitimation to members of the CERN personnel and their family members under certain conditions. More information under this link: http://admin-eguide.web.cern.ch/en/procedure/swiss-cards

FAMILY-FRIENDLY SOCIAL AND CULTURAL LIFE AT CERN & IN GENEVA

CERN clubs are subsidized by the Staff Association and CERN administration. Clubs offer sports, leisure and cultural activities, enhancing non-professional relations among CERN staff members and facilitating their own and their families’ integration into the local area. Clubs are run under the supervision of the Staff Association through the Clubs Coordinating Committee (CCC). The Committee is elected by the presidents of CERN clubs.

La Ville de Genève devotes a large part of its budget to cultural activities, which can be enjoyed by English-speakers without any knowledge of French.

Interfon cooperative is a grouping of national and international civil servants of the franco-genevoise area with over 6000 members.

To settle in a new country might be the start of a new job search. That is why CERN gives you the opportunity to meet with networks, who can give you advice and help on jobseeking in the area.

France or Switzerland?

Residing in Switzerland

The choice to live in Switzerland can have a real impact for your spouse’s chances to find a job. Family members of CERN members of the personnel, can obtain a Swiss working permit (Ci permit). The permit Ci becomes null when the family member looses its entitlement to the Swiss card. The budget is an important point to consider when choosing to live in Switzerland.

Residing in France

Job in Switzerland: For EU citizens, they will be considered as « Frontaliers » with a G permit requested by the employer. For non-EU citizens, the chances to find a job in Switzerland are very low.

Job in France: Jobs are accessible for EU citizens but are few and often low-skilled with unattractive salaries and benefits. For temporary jobs, the main problems are the heavy administrative process to register for Social Security in France and the difficult administrative follow-up between two phases of temporary employment. For non-EU citizens, no chances to find employment in the area. (source: from previous experiences).

French classes

As we are in a French speaking area, generally employers request a B1 level of French. To ensure your integration in the area, French classes at CERN are open to spouses and partners.
Welcome Centre in Geneva

The Welcome Center is a service provided by the University of Geneva (UNIGE) and the University Hospital of Geneva (HUG).

The Welcome Center of the University of Geneva and Carriere2 kindly accept spouses/partners of CERN members of the personnel to their monthly workshops on professional transition to Switzerland (registration fee applies).

CERN offers access to different child care facilities to meet family needs.

CERN has on-site child care centre:

- Creche and School of the CERN Staff Association « Le Jardin des Particules »

CERN signed agreements with two child care facilities:

- EVE Champs-Frêchets in Meyrin
- Jardin de Capucine in Saint-Genis-Pouilly

The Social Affairs Service webpages give an overview on educational system and on the child care facilities in both countries.

Switzerland offers many International Private Schools with programs in English, German and Swedish.

In France, the Lycée / Collège International in Ferney-Voltaire with its international sections in English, German, Italian, Spanish and Dutch.
