THE ACCESSION OF THE SLOVAK REPUBLIC

CONCERNING

DRAFT COUNCIL RESOLUTION

CONCERNING

THE ACCESSION OF THE SLOVAK REPUBLIC

Geneva - 25 June 1993
DRAFT COUNCIL RESOLUTION
CONCERNING
THE ACCESSION OF THE SLOVAK REPUBLIC

THE COUNCIL.

CONSIDERING:

The interest of both the Slovak Republic and CERN in the accession of the Slovak Republic as a Member State of the Organization;

the application from the Government of the Slovak Republic dated 16 December 1992;

the accession of the Czech and Slovak Federal Republic to CERN as from 1 January 1992, following the admission by Council at its Ninety-third Session on 20 December 1991, and the financial arrangements agreed upon for the transition period 1992-1999;

CONSIDERING ALSO:

the Convention for the establishment of the Organization, dated 1 July 1953, as amended on 17 January 1971, hereinafter called "The Convention", in particular Articles III, VII and XVII;

DECIDES AS FOLLOWS:

ARTICLE 1

1. The Slovak Republic is admitted to the Organization by unanimous vote of all the Member States.

2. The Slovak Republic shall become a Member of the Organization by acceding to the Convention in conformity with Article XVII of the Convention.
ARTICLE II

1. The Slovak Republic shall participate in the basic programme of the Organization.

2. The Slovak Republic succeeds to the benefit of the transition period of eight years - namely 1992-1999 - granted to the Czech and Slovak Federal Republic on 25 October 1991, according to which for the first four years, i.e. 1992-1995, the contribution of the Czech and Slovak Federal Republic was set at 0.14% of the total contribution level decided by Council each year, which is about 1.3 MCHF (one million three hundred thousand Swiss francs) for the year 1992 at 1992 prices. The Slovak Republic shall during the initial period of 4 years yearly contribute one-third (1/3) of the contributions described above. For the years 1996-1999, the contribution, calculated as a percentage of the full contribution based on Net National Income (NNI) of the Slovak Republic, should in principle rise linearly to reach 100% in the year 2000;

   it is proposed to determine the exact rate of increase in the course of 1994, when a proper assessment of the economic performance of the Slovak Republic can be made.

3. These contributions shall cover all the financial obligations due by the Slovak Republic as an acceding Member State, according to Article VII of the Convention.

4. The contribution from the Slovak Republic shall be subject to the Organization’s financial and budgetary rules.
