MEMORANDUM

To : Members of the E.E.C. and N.P.R.C.
From : G.L. Munday
Subject : The location of the Muon Storage Ring

The attached report by J. Madsen indicates the proposed location of the Muon Storage Ring and its likely effect on the adjacent experimental areas. The ring will occupy space for a considerable time from early 1965 onwards and so must be taken into account in future plans. (N.B.: since this note was written there may be changes in the detail, but this does not in any way affect the main points).

G.L. Munday
